PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 2+ years of experience delivering scalable, production-grade features for an enterprise healthcare management system used across multiple hospital modules. Deep expertise in React.js, Next.js, and TypeScript, with hands-on experience building complex UI systems including dynamic form engines, real-time data flows, PDF generation pipelines, and cross-platform mobile apps (React Native, Expo, Flutter). A fast and self-directed learner who quickly researches and masters new technologies — demonstrated by independently picking up Flutter, React Native, and healthcare domain knowledge on the job. Thrives in Agile environments, collaborating closely with backend developers, product managers, and healthcare stakeholders to deliver clean, maintainable solutions.

TECHNICAL SKILLS

Languages

JavaScript, TypeScript, Dart

Web Frameworks

React.js, Next.js (SSR & CSR)

Mobile

React Native, Expo, Flutter

UI & Styling

Material UI, HTML, CSS

Data & Integration

Axios, React Query, REST APIs, Azure

Tools

Git, Testing & Debugging

Soft Skills

Quick Learner, Self-Directed Research, Adaptable to New Technologies, Critical Thinking, Team Collaboration

WORK EXPERIENCE

Aster DM Healthcare

Dubai, UAE | Nov 2024 – Present

Senior Associate IT | Frontend Developer

- Developed and maintained Alif, an enterprise healthcare management system, across modules including EHR, Front Office, Billing, Laboratory, Radiology, and Nursing using React.js, Next.js, TypeScript, and Material UI
- Engineered a dynamic prescriptions module featuring brand/generic medicine toggle, tapering date logic, allergy detection chips, favorites autopopulation, and encounter-scoped PDF generation
- Built the VitalSignsForm with a template-driven dynamic schema, formula field calculations, conditional SpO2 fields, range validation, and per-module autopopulation (EHR, Nursing, Radiology)
- Delivered the AI Screening feature — nursing data entry form, doctor grading drawer with IntersectionObserver mini-nav, and a printable AI clinical summary page
- Implemented Front Office episode/encounter management with subrow pagination, eligibility check polling, and a CORS proxy via Next.js API routes
- Integrated UAE Emirates ID reader with form autopopulation, phone conflict resolution dialog, and partial PATCH payload tracking via modifiedFields
- Led development of an in-house React Native (Expo) patient-facing mobile app, architecting core screens, navigation structure, and API integration
- Delivered Billing enhancements: multi-payment mode, invoice PDF, facilityRegulatoryCode across tables, and advance payment fixes
- Integrated Azure REST APIs with Axios and React Query; resolved stale cache bugs and reduced redundant API calls via module-level caching hooks
- Participated in Agile sprint planning, stakeholder demos, and collaborated closely with backend developers and product managers

CamerinFolks Pvt. Ltd

Kerala, India | Oct 2023 – Apr 2024

Flutter Developer Intern

- Collaborated with senior developers to design, develop, and maintain cross-platform mobile applications using Flutter and Dart
- Translated UI/UX mockups and wireframes into functional interfaces using Flutter widgets within Agile cross-functional teams

EDUCATION

Bachelor of Computer Applications

University of Calicut

2020 – 2023

Higher Secondary (HSC)

D.H.O.H.S.S Pookkarathara

2018 – 2020

SSLC

D.H.O.H.S.S Pookkarathara

2018

LANGUAGES

English • Malayalam • Tamil
